QUESTION 241 Which two different configuration can you apply to a device to block incoming SSH access? (Choose two) A. Option AB. Option BC. Option CD. Option DE. Option E Answer: BCE Explanation: If you are denying incoming traffic you would apply the access list in the inbound direction, not outbound.

QUESTION 242 DHCPv6 can obtain configuration parameters from a server through rapid two-way message exchange. Which two steps are involved in this process? (Choose Two) A. solicit B. advertise C. request D. auth E. reply Answer: AE Explanation: When a server has IPv6 addresses and other configuration information committed to a client, the client and server may be able to complete the exchange using only two messages, instead of four messages as described in the next section. In this case, the client sends a Solicit message to the All_DHCP_Relay_Agents_and_Servers requesting the assignment of addresses and other configuration information. The server that is willing to commit the assignment of addresses to the client immediately responds with a Reply message.

QUESTION 243 Which two phases of DMVPN allow to spoke sites to create dynamic tunnels to one another? (Choose Two) A. Phase 1 B. Phase 2 C. Phase 3 D. Phase 4 E. Phase 5 Answer: BC

QUESTION 244 ipv6 access list and need to apply it to block traffic INBOUND telnet and interface (choose two) A. inbound..... B. inbound..... C. outbound..... D. outbound..... E. outbound..... Answer: AB

QUESTION 245 EIGRP is implemented in a frame relay network but there is no adjacency. Which options cause the adjacency to come up? (choose 2) A. disable split horizon B. neighbor command to configure it for a point to multipoint on the WAN interface Answer: AB

QUESTION 246 Which allowing website access between certain times A. Filters using Time-Based ACLs Answer: A
